What to do at Jasper and Mount Robson

FOREWORD

THIS folder aims to enable the visitor in Jasper National Park to use to best advantage the time at his disposal, be it a day, a week, or a month.

Superb facilities are afforded to ride, climb, hike, motor, play golf or tennis, dance, swim, canoe, fish, or merely rest amid the charming surroundings of Jasper Park Lodge. The following are listed suggestions for the guest of one, two, three or four days, and brief outline of more extended riding and climbing trips, complete information as to which may be obtained at the Transportation Desk in the Main Lodge.

From the early morning "constitutional" around Lac Beauvert until the strains of the last waltz fade away, every waking moment at Jasper may be filled with new and wonderful experiences. But Jasper may not be seen in a day or a week. Its 5,300 square miles of sky-piercing peaks and ice-clad slopes, gem-like lakes and wide sweeping silver-threaded valleys call the visitor back to a yet more leisurely stay to join again in the pleasures close at hand, and thrill at a first glimpse of that "country beyond "

Suggestions are also given for the visitor in Mount Robson Park, B.C., which adjoins Jasper National Park on the West. Here the tourist, alpinist, and big game hunter find accommodation and facilities which make readily accessible a region of unsurpassed appeal. Enquiry at the Transportation Desk will elicit full information

Saddle Trip No. 16: Maligne Chalet, commanding a full view of Maligne Lake, is situated on a low plateau at the outlet. Before the Chalet and extending in a southeasterly direction for seventeen miles, with a breadth varying from two hundred yards to two miles and possessing some fifty miles of shore line, lies the largest glacier fed lake in the Canadian Rockies

Fording the Rocky River

Beginning with Mount Samson, the jagged peak ten thousand feet high facing the Chalet on the left, the altitude of the peaks forming the Maligne group, which includes Mounts Charlton, Unwin, Warren, Mary Vaux and Maligne, increases until, in Mount Brazeau, a height of twelve thousand two hundred and fifty feet is reached— one thousand feet higher than Mount Edith Cavell and approaching the height of Mount Robson itself. The mountains rise precipitously from the lake and are heavily laden with snow and ice. At the southwest end of the lake, farthest from the Chalet, lies a considerable snowfield and leading in a southerly direction towards the Brazeau River district is a high, though broad snowpass, along the western base of Mount Brazeau and affording an easy way of access to this very interesting neighbourhood. The nature of mountains in the Maligne Lake district affords abundant opportunity for both ice and rock climbing and is within easy reach of the Chalet by motorboat, horseback or on foot and many comparatively easy climbs may be carried out by the amateur.

The mountains, meadow and flowers of the alplands lying to the west within easy reach from the Chalet,

will prove of interest to botanist and naturalist alike. Sheep, goat, cariboo, moose and deer frequent these pastures. The Opal Hills facing the Chalet on the east provide sheep and goat for the observation of the visitor, while the mountain sides overlooking the lake and particularly those about the southeast are used extensively by the mountain goat as a summer pasture.

ROUTE

The first five miles of the trail lies eastward from Jasper Park Lodge down the Athabaska Valley to the Maligne River, then turning up the Maligne River, along the base of the Colin Range nine miles to Medicine Lake and three and one-half miles along the shore of Medicine Lake to Medicine Lake Lodge. From Medicine Lodge stretches, etc., ten miles of good trail and easy grades along the east bank of the Maligne River to Maligne Chalet.

Visitors returning by the Shovel Pass route over the Maligne Range, on leaving the Maligne Chalet, proceed up the slope of the mountains to the west of the Chalet and crossing the Alpine meadows, go through Little Shovel Pass and big Shovel Pass to spend the night at Shovel Pass Camp, completing the trip the following day by following the trail down from the Maligne Range, by Signal Mountain, into the Athabaska Valley and return to the Lodge.
